

Get customers back on the road faster with Shop Manager

A cloud based BMS solution that empowers shops to make better use of staff, deliver more efficient repairs and grow profits. Shop Manager combines modern cloud technology with Solera's 40 years of experience in the collision repair industry.

Key Features:

- Cloud-based with multi-site support: works from any location
- Ability to manage rental cars collection and delivery
- Workshop app to upload extra images, view repair status
- Integrates with Qapter estimating and 3rd party estimating systems
- Communication suite connects drivers to repairers

Benefits at a glance

Shorter cycle time

Kick start claims with our dedicated inspection app. Capture accurate customer info and quality images before the vehicle arrives onsite, allowing shops to get ahead planning repairs.

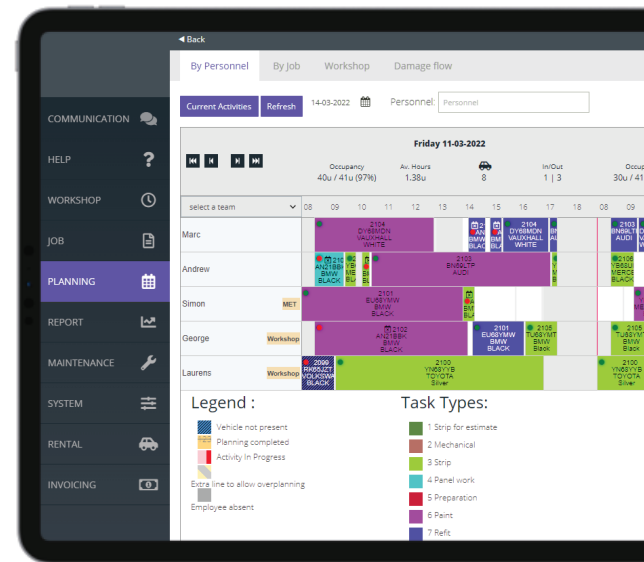

Greater shop efficiency

Auto workshop planning builds out repair schedules on your behalf ensuring maximum shop hours billed. View parts availability, re-allocate repair tasks and upload extra images within the reception app.

Increased profitability

Manage your business in one place. Use advanced dashboard reports to keep your business on track, view hours billed, profit and loss, plus more at a site or group level.

Shorter cycle time

60min

avg time saved per claim

Greater shop efficiency

+10%

better workshop utilization

Increased Profitability

+3%

growth net profitability

Check out what our customers say

“When SMART Bodyshop Solutions acquired the former CARS Kidderminster Business, within the first week we agreed to replace the current BMS with Shop Manager. This transition enabled us to introduce a run new way of working for the existing team, simplifying processes using apps to help define key information and capture real-time information and images . Shop manager provides easy access to the reporting information we need, and data clarity around our daily key metrics through a single end to end system.”

Jim Thomas, Owner Smart Bodyshop Solutions
